

The PBN, scout movement from Hamburg

The PBN (Pfadfinder- und Pfadfinderinnenbund Nord) is an exclusive voluntary organized youthclub, independent of all parties, churches and adult associations with ca. 680 active members between 9 and 25 years.

The members has to meet high requirements like selfbehavior, creativity, community spirit, obligation and willingness. The PBN is divided in 15 different chapters. In every chapter there are 5-12 groups with 5-10 same aged and youngsters, separated in females and males.

The group is the center of our work.

Once a week there is a group meeting in one of the self-governed scout houses. The group leader prepares activities like singing, sport activities or crafting.

Once in a month the youngsters go on a trip which they had planed before.

In the summertime they travel in other countries for three or four weeks to experience adventure, meet a country and its culture from a different perspective as a tourist. We want the youngsters to see nature.
